

Atrium Consulting is a leading provider of professional real estate services. Our core business is Facility Management, Real Estate Marketing and Market Research, based on latest international management theories. We support major foreign investors by providing valuable solutions for their realties. For our new Sofia office we would like to set up following vacant position at the next possible date:

Facility Manager / Mechanical Engineer

Your Profile:

- > Reliability, high work motivation and cultivated appearance
- > More than 5 years of maintenance experience
- > Comprehensive HVAC knowledge
- > Excellent knowledge of verbal and written English
- > PC literacy (MS Office and BMS Software) is a must
- > Strong organizational skills and able to work lead smaller technical and maintenance teams

We offer promising positions in the fast developing real estate market. Successful applicants will be responsible for the maintenance of large and modern commercial properties - a business field offering further development possibilities.

Please send your complete application in English language including: cover letter, desired salary, CV with recent photo until 28.02.2008.

Only short-listed candidates will be called for an interview.
