

Atrium Consulting is a leading provider of professional real estate services. Our core business is Property Management, Real Estate Marketing and Market Research, based on latest international management theories. We support major foreign investors by providing valuable solutions for their realties in Serbia. For the Belgrade office we would like to set up following vacant position at the next possible date:

Facility Manager / Mechanical Engineer

Your Profile:

- > Reliability, high work motivation and cultivated appearance
- > More than 5 years of maintenance experience
- > Comprehensive HVAC knowledge
- > Excellent knowledge of verbal and written English, German language is a plus
- > PC literacy is a must
- > Strong organizational skills and able to work lead smaller technical and maintenance teams
- > non smokers preferred

We offer promising positions in the fast developing real estate market. Successful applicants will be responsible for the management of large and modern commercial properties - a business field offering further development chances.

Please send your complete application in English language including: cover letter, desired net salary, CV with recent photo until 18 January 2008.
